U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On December 29, 1974
- Export shipments in
Current Marketing Year
- Daily Sales reported
December 30, 1974 - January 7, 1975

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our brief experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on January 9, 1975, release:

Wheat: The apparent export commitment (outstanding sales plus shipments) increased by only 267,000 metric tons (M.T.) during the week ending December 29, keeping it well below the USDA estimate for 1974/75 wheat exports. A slight decrease in the reported commitment to the European Community (EC) was more than offset by small increases to India, Taiwan, and several Latin American countries.

Feed Grains: The apparent export commitment increased by the marginal figure of 79,000 M.T. during the week ending December 29. Although the apparent export commitment for corn remained well above the USDA export estimate for 1974/75, the rate of shipment for the first 3 months of the marketing year was only slightly higher than the rate implied by the estimate.

Rice: The apparent export commitment remained essentially unchanged during the week ending December 29. No significant new sales were reported during the period.

Soybeans: During the week ending December 29, the apparent export commitment remained essentially unchanged while the annual unadjusted rate of exports declined to 14.1 million M.T., more in line with the USDA estimate. In the EC-9, exports of soybeans to Denmark, United Kingdom, Belgium, France and Italy are keeping pace with export commitments, while shipments to The Netherlands and West Germany are well behind. Exports of soybeans to East Germany now total 17,700 M.T., the total of current commitments, and additional sales to that country appear likely. No shipments of soybeans against sales to Finland (5,000 M.T.), Singapore (12,200 M.T.) or Republic of Korea (30,000 M.T.) have been reported.

Soybean Meal: During the week ending December 29, the apparent export commitment and the unadjusted annual rate of exports remained essentially unchanged at 7.7 million M.T. and 4.1 million M.T., respectively. In the EC, the rate of exports appears to be keeping pace with commitments in all countries except The Netherlands, West Germany and Italy. Actual exports October 1 through December 29 as a percentage of commitments for these countries are as follows: The Netherlands, 8 percent; West Germany, 10 percent; Italy, 1 $\frac{1}{4}$ percent. There have been no exports of soybean meal against sales to Yugoslavia (36,000 M.T.), Japan (30,000 M.T.), Syria (10,000 M.T.), Trinidad (10,000 M.T.) and certain Caribbean countries.

Soybean Oil: For the week ending December 29, 10,500 M.T. of soybean oil were exported to known destinations. The major recipients were Spain (5,200 M.T.), Uruguay (3,500 M.T.) and American Samoa (1,500 M.T.). If the current unadjusted annual rate of exports continues, soybean oil sales in 1974/75 would approximate 537,000 M.T. and would be within the USDA estimate. Outstanding sales to the EC still remain at over 100,000 M.T. It is not known how much of this oil is destined for other destinations as The Netherlands is a traditional transshipment point, or if some contracts may be canceled before delivery.

Cotton: During the week ending December 29, 62,000 running bales (RB) of Upland cotton were exported, bringing the total for 1974/75 to 1,060,000 RB. Outstanding sales again declined less than exports and the apparent export commitment increased to 4,308,000 RB.

Readers of this release are reminded that a Notice of Proposed Rulemaking appeared in the Federal Register on December 27 which would alter the regulations governing this report. The principal proposal would limit reportable transactions to those on which a firm price has been fixed. Sales containing an agreed mechanism to determine a price later would not be reported until the mechanism became operative and a firm price established.

The Department's only purpose in making this proposal is to improve the quality of the information published in this report--insofar as is possible, to record and report sales totals which correspond more closely to quantities ultimately exported than they now do.

Reporting exporters should continue to submit their reports in the same manner. If the regulation is amended, instructions will be issued to implement any change.

Comments from all interested persons should be received by the Director, Export Sales Division, FAS, Room 4506 South Building, 14th & Independence Ave., S.W., Washington, D. C. 20250, on or before January 27. Only those comments received in writing will be considered, and persons responding are urged to include reasons for their recommendation.

S P E C I A L N O T E

Data in this report include export sales, export shipments and other related transactions between private U.S. exporters and foreign buyers. Sales made and shipments financed under Title I, P.L. 480 are included in weekly reports to the Department, but are excluded from daily reporting requirements under Notice to Exporters No. 1, Revision 1. Purchases by the Commodity Credit Corporation under Title II, P.L. 480 which result in exports by CCC or voluntary agencies, do not meet any of these reporting requirements and are not included in the data on the following tables.
